Provincial Secretary.

Mr. Speaker entered the Assembly and took the Chair.

His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne:

MR. SPEAKER AND MEMBERS OF THE
LEGISLATIVE ASSEMBLY:

On this first occasion on which I am privileged to represent Her Majesty at the opening of this assembly, it gives me much pleasure to welcome you to the Third Session of the Fifteenth Legislature of the province.

I, first of all, wish to take this opportunity, personally and on behalf of all our citizens, to pay tribute to my predecessor, Dr. J. Percy Page, who, as Her Majesty's representative, so diligently and conscientiously carried out the duties of this office during the past six years.

You are met for this session in the last year of our first century as a nation and our sixty-first year as a province. At no time since Confederation has there been greater need for constructive leadership and concerted action to seize the unique opportunities and meet the stern demands of our times. I am confident you will apply yourselves to your tasks conscious of this responsibility and I pray that your decisions will contribute to the good and welfare of this province and the strength, unity, and progress of our nation as a whole.

During this session you will be asked to deal with a comprehensive legislative program designed to meet the modern needs of a new generation of progressive people and to give new meaning to the fundamental principle that the proper function of democratic government is to give the people it serves the results they want from the management of their public affairs.

All phases of our provincial economy recorded substantial progress during 1965. Revenues accruing to the public treasury from the development of natural resources surpassed the previous year by $8\frac{1}{2}\%$. Labour income increased approximately 12% . Employment was at a high level with acute shortages of manpower in certain categories of skilled personnel, particularly in the construction industry.

Agriculture completed a generally successful year with increased income from livestock production. Adverse weather conditions reduced crop yields and impaired quality in some areas. You will be asked to approve expenditures which my government has undertaken to provide for assisting farmers in districts most seriously affected. The Alberta Crop Insurance Corporation commenced operation during 1965 and will be expanded into more areas during the ensuing year.

Having regard to the importance of water resources, my government will propose for your consideration a comprehensive long-term water conservation program to ensure an adequate supply of water to meet the future requirements of agriculture, industry and recreational activities. You will be asked to approve substantial appropriations to permit the first phase of this program to be undertaken during the ensuing year.

A program designed to meet the modern requirements of Alberta's livestock industry will be submitted for your approval. Special emphasis will be given to research and to this end an Alberta Agricultural Research Trust will be established to increase financial support to all phases of agricultural research at the Faculty of Agriculture at the University of Alberta. Related projects will be proposed to improve production, animal health, processing, livestock marketing and management. A Livestock Dealers Insurance Fund will be recommended for your approval, designed to protect producers up to 80% of the market value of livestock sold through registered dealers in case of bankruptcy or default.

Legislation will be introduced to provide partial compensation to farmers whose livestock through the direct action of game hunters. The cost of this compensation will be borne by the Wildlife Crop Damage Fund accruing from a levy on hunting certificates.

It is proposed to expand agricultural and vocational colleges to provide additional educational opportunities and specialized training for the increasing number desirous of engaging in agriculture.

My government will recommend the further expansion of joint projects with the Federal Government under the national ARDA program.

The special legislative committee, established at the last session to study problems confronting commercial fisheries, will present its recommendations for your consideration.

A complete revision of The Public Lands Act will be submitted for your approval together with amendments to The

Homestead Lease Loan Act, which will serve to increase the amount of such assistance.

Extensive studies and consultations have taken place regarding the re-organization of higher education in Alberta. A new University Act, based on recommendations submitted by the University Board of Governors, will be submitted for your approval.

A further report of the special Survey Committee on Higher Education will be tabled for your information together with the report of a special study of Junior Colleges prepared for the committee by Dr. Andrew Stewart.

Increased facilities in the field of high school and vocational training and an extension of services to children having various forms of handicaps will be undertaken during the coming year.

Substantially increased appropriations will be requested for the School Foundation Program Fund and to provide increased payments under The University and College Assistance Act. To assist in meeting the demand for skilled manpower, the Institutes of Technology and vocational high school facilities will be further expanded. Special attention will be given to the extension of retraining and upgrading facilities in schools operated by the Vocational Education Division of the Department of Education. Provision will be made to increase training programs for workers and prospective workers in co-operation with industry.

A Pension Benefits Act designed to more effectively regulate private pension plans and facilitate intergration with similar plans in other Provinces will be submitted for your consideration.

In the field of public health, my government, as a special centennial project, will propose the establishment of a Western Canada Heart Institute and a centre for neurological, renal, endocrine and sensory organ disease, in which the most up-to-date diagnostic, research and treatment services will be available to our people.

The 100-bed Glenrose School Hospital in Edmonton will be completed in the near future and will provide modern diagnostic, treatment and education facilities for physically handicapped and emotionally disturbed children.

You will be asked to approve a major expansion of the Alberta Medical Plan to increase the subsidies available to those who qualify for assistance and to enlarge the group eligible for such subsidies. My government also will recommend a substantial extension of the services available under the program thereby making it the most comprehensive prepaid medical insurance plan of its type in Canada.

Legislation will be introduced to enable municipalities to actively participate in preventive welfare services with provincial financial assistance.

The report of the special committee appointed to examine the policies and procedures of adoption in Alberta will be tabled and you will be asked to approve extensive revisions to The Child Welfare Act, based on the committee's recommendations.

An expanded program to rehabilitate those persons capable of self-support but now dependent on welfare will be implemented during the ensuing year.

Provision for the construction of additional senior citizens' homes will be submitted for your approval.

Amendments to various statutes affecting municipal administration will be introduced for your consideration. To assist in easing the burden of municipal taxation for those most seriously affected, legislation will be introduced to entitle property owners, occupying their own homes, to a special tax discount in the amount of \$50.00.

A program to provide increased provincial grants for the construction of freeways and fringe roads in major cities will be submitted for your consideration. An extensive highway construction program will be proposed for the coming year with emphasis on the conversion of select routes to freeway status where traffic warrants. The highway to Fort McMurray will be completed to the gravel stage this year. A new Public Highways Development Act will be submitted for your approval. This statute will provide for a grid of secondary roads, and joint municipal and Highways Department studies are now underway to obtain the necessary statistics for its orderly development. A program for the testing of motor vehicles will be proposed to further promote highway safety.

The Northern Development Council will continue its program of roads into newly settled areas and will also undertake a program of roads to forest resources and certain drainage projects. Funds will be requested for the construction of six air strips in northern areas during the ensuing year.

Initial contracts have been let for the construction of the Alberta Resources Railway. Additional contracts will be let in the near future.

To ensure that Alberta Government Telephones will continue to meet the rapidly developing requirements of a modern communications system, you will be asked to approve amendments to The Alberta Government Telephones Act and The Rural Telephones Revolving Fund Act.

Having regard to public concern occasioned by the increasing costs of automobile insurance, you will be asked to appoint a special committee of the Legislature to enquire into this matter during the current session.

A program to stimulate greater industrial development will be undertaken by my government. An expanded tourist promotion program also will be proposed.

Legislation will be submitted to afford greater protection to the consumer public by providing a "cooling off" period on

contracts signed with door-to-door salesmen. Provision will be made for the cancellation of such contracts where non-performance of conditions is established.

Amendments to The Credit Union Act will be introduced which will provide greater flexibility of operation consistent with sound management and to allow Credit Unions more adequately to meet the changing requirements of modern society.

A report by the special committee established at the last session of the Legislature to examine into the operation of government boards and tribunals will be tabled during the session for your information and such action as you deem appropriate.

A bill establishing a code of human rights will be introduced, designed to protect human dignity and ensure respect for human rights regardless of race, color or creed.

A bill to authorize municipalities, with the consent of a majority of their electors, to pass bylaws exempting certain forms of recreation from the application of The Lord's Day Act will be submitted for your consideration.

My government proposes to progressively extend its program of community development with a view to encouraging and assisting the residents of marginal and underprivileged areas to attain the maximum degree of self-improvement and independence.

In recognition of the large percentage of Alberta residents who are in the younger age category, my government will introduce legislation to establish a new Ministry of Youth. This ministry will be designed to encourage constructive youth activities and organizations and to stimulate interest in youth training for leadership in social, cultural, recreational and business affairs.

A Bill will be introduced to establish a Provincial Archives of Alberta and to provide for the collection and preservation of documents and papers, which relate to the history of the province.

Amendments to The Libraries Act will be proposed to increase provincial grants to libraries and improve administration.

Efforts to encourage maximum public interest and participation in Canada's forthcoming Centennial will be increased during 1966. A special Centennial staff, under the direction of the Alberta Centennial Committee, will assist in the planning and co-ordination of public and private projects for the celebration of the one hundredth anniversary of Confederation.

My government acknowledges with gratitude a generous offer of Mr. Eric Harvie, Q.C., of Calgary, who proposed as a family Centennial project to donate to the Province the Glenbow Foundation collections to be held in permanent trust for the people of Alberta by an Institute established for that purpose. Mr. Harvie further proposes to donate a substantial sum of

money towards the establishment of the Institute which sum will be matched by an allocation from the public revenue fund of the Province. A Bill, accordingly, will be introduced to establish the Glenbow-Alberta Institute and provide for its financing and operation.

To provide a more efficient public service, a Central Registry Act will be submitted for your approval, providing for the establishment of a central registry and using electronic and rapid communications equipment for the registration and search of liens against personal property.

A new Legal Profession Act will be introduced for your consideration together with amendments to The Limitations of Actions Act and The Trustee Act.

A new contract with the Government of Canada for the policing of the province by the Royal Canadian Mounted Police and extending such services to municipalities with a population not exceeding 1500 has been negotiated.

A large scale program for the construction of public buildings will be recommended for the coming year. Major projects include extensive additional facilities at the University campuses in both Edmonton and Calgary. A number of new institutions and other public buildings will be required throughout the province to meet the needs of Alberta's expanding population.

The final report of the Public Expenditures and Revenue Study Committee will be tabled for your information.

Amendments to The Treasury Department Act and The Alberta Municipal Financing Corporation Act will be proposed.

The Public Accounts for the last fiscal year and the Estimates of revenues and expenditures for the ensuing year will be presented for your careful scrutiny and approval.

I leave you now to the business of the session confident that you will apply yourselves to your responsibilities in a manner that will ensure the best interests of all our people. I pray that Divine Providence will guide and direct your deliberations.

Moved by Mr. Dickie and seconded by Mr. Maccagno:

WHEREAS municipal governments throughout the Province of Alberta with or without the aid of contributions from the Provincial Government are erecting and maintaining facilities for the development of youth in athletic pursuits;

AND WHEREAS members of the various communities in the Province of Alberta with the aid of contributions from both senior governments have initiated programmes to assist and develop young athletes;

AND WHEREAS the response of youth to this encouragement is productive of some first-rate athletes who have demonstrated their capacity in national and world-wide competition;

AND WHEREAS the revenue potential from organized sport through gate receipts and television is now becoming a major source of earning for people with athletic talents;

AND WHEREAS in the opinion of this House a community and the parents and the youth who together have developed marketable athletic talents in a young person should endeavour to ensure that the financial fruits of these attainments are saleable in a competitive market which will yield the young athlete a reward commensurate with his services.

AND WHEREAS it appears that the system in use by the National Hockey League denies the young athlete access to a competitive market and frustrates his right to a reward that is the product of competitive bidding by those who can use his talents for gain in that the National Hockey League in association with the Canadian Amateur Hockey Association has set up in all parts of Canada an arrangement by which no young athlete can engage in the game of hockey at any age without losing his right to serve for reward the team of his choice in the National Hockey League through the following devices:

1. That the Canadian Amateur Hockey Association receives annually from the National Hockey League a sum of money and permits the National Hockey League to sponsor teams with players of all ages and to register these players after which the player when he attains his professional proficiency is required to serve a named particular National Hockey League team to the exclusion of all others and at a salary fixed by that team.

2. It has been agreed by the members of the National Hockey League that should a young athlete refuse to be bound by this arrangement each of them will deny him the right to play on any other team in the League.

3. It has been agreed by the members of the National Hockey League they will not permit any other club to claim players from the territory in which any other National League team has the rights described.

NOW THEREFORE BE IT RESOLVED that in the opinion of this Assembly the Government should submit for enactment a Bill to be known as "The Young Athletes Protection Act" for the preservation of the rights of young athletes which will within the limits of the legislative jurisdiction of this Assembly prevent the recited abuses by:

- (a) declaring that any contract by a minor or the minor and his parents shall be null and void and of no effect unless within thirty days next after the 18th birthday of the athlete concerned he voluntarily enters into a contract for his services as an athlete with a member of the National Hockey League.
- (b) declaring that it be an offence punishable by a fine for any person or organization to solicit, entice or induce any minor in the Province of Alberta before his 18th birthday into any contract which in any way will hamper the ability of him to freely enter a contract

with a person or organization of his choice at any time after his 18th birthday.

- (c) specifically empowering the Supreme Court of Alberta on the application of the minor or his parents to restrain by injunction any person who admits to soliciting, enticing or inducing any minor to enter into any such contract.
- (d) making it an offence punishable by fine for two or more persons anywhere to conspire together to engage in such conduct as will constitute a breach of the prohibition of this Act.

AND THAT when effect has been given to this legislation it appears that the young athlete they free from any restraint of contract will be denied the right to play as a result of an agreement to combine to refuse him a playing opportunity in the National Hockey League, and that the legislative authority to prevent and punish such a conspirator is solely within the field of the federal parliament, that this Assembly pass and submit to the federal parliament a resolution requesting it to make appropriate amendments to the laws respecting illegal combinations and preclude the members of the National Hockey League or any of them from combining with any other to boycott a young athlete from playing with any team in the National Hockey League.

A debate followed.

Mr. Clark moved the adjournment of the debate, which was agreed to.

Moved by Mr. Dickie, seconded by Mr. Maccagno:

BE IT RESOLVED that this Assembly urge the Government to bring before this Session of the Legislature the legislation necessary to provide for daylight saving time throughout the Province giving the city, town, village, municipal district or county the right to opt out in the event that they so desire as indicated by a majority vote of their respective councils.

A debate followed.

Mr. Fleming moved the adjournment of the debate, which was agreed to.

Moved by Mr. Maccagno, seconded by Mr. Dickie:

BE IT RESOLVED that this Assembly urge the Government to bring before this Session of the Legislature the legislation necessary to empower local authorities to provide for the flouridation of the communal water supplies when the desires of the citizens are indicated by a simple majority in a plebiscite held to determine the desire of the people.

A debate followed.

Mr. Gerhart moved the adjournment of the debate, which was agreed to.

Moved by Mr. Switzer, seconded by Mr. Dickie:

BE IT RESOLVED that this Assembly urge the Government to bring before this Session of the Legislature the necessary amendments to existing legislation to permit private individuals to make wine for their home consumption.

A debate followed.

Ordered that the Assembly revert to:

LIEUTENANT GOVERNOR'S SPEECH.

The Order of the Day being read for the continued debate on the following Motion:

Moved by Mr. Dickie, seconded by Mr. Maccagno:

WHEREAS municipal governments throughout the Province of Alberta with or without the aid of contributions from the Provincial Government are erecting and maintaining facilities for the development of youth in athletic pursuits;

AND WHEREAS members of the various communities in the Province of Alberta with the aid of contributions from both senior governments have initiated programmes to assist and develop young athletes;

AND WHEREAS the response of youth to this encouragement is productive of some first-rate athletes who have demonstrated their capacity in national and world-wide competition;

AND WHEREAS the revenue potential from organized sport through gate receipts and television is now becoming a major source of earning for people with athletic talents;

AND WHEREAS in the opinion of this House a community and the parents and the youth who together have developed marketable athletic talents in a young person should endeavour to ensure that the financial fruits of these attainments are saleable in a competitive market which will yield the young athlete a reward commensurate with his services.

AND WHEREAS it appears that the system in use by the National Hockey League denies the young athlete access to a competitive market and frustrates his right to a reward that is the product of competitive bidding by those who can use his talents for gain in that the National Hockey League in association with the Canadian Amateur Hockey Association has set up in all parts of Canada an arrangement by which no young athlete can engage in the game of hockey at any age without losing his right to serve for reward the team of his choice in the National Hockey League through the following devices:

1. That the Canadian Amateur Hockey Association receives annually from the National Hockey League a sum of money and permits the National Hockey League to sponsor teams with players of all ages and to register these players after which the player when he attains his professional proficiency is required to serve a named particular National Hockey League team to the exclusion of all others and at a salary to be fixed by that team.

2. It has been agreed by the members of the National Hockey League that should a young athlete refuse to be bound by this arrangement each of them will deny him the right to play on any other team in the League.

3. It has been agreed by the members of the National Hockey League they will not permit any other club to claim players from the territory in which any other National League team has the rights described.

NOW THEREFORE BE IT RESOLVED that in the opinion of this Assembly the Government should submit for enactment a Bill to be known as "The Young Athletes Protection Act" for the preservation of the rights of young athletes which will within the limits of the legislative jurisdiction of the Assembly prevent the recited abuses by:

- (a) declaring that any contract by a minor or the minor and his parents shall be null and void and of no effect unless within thirty days next after the 18th birthday of the athlete concerned he voluntarily enters into a contract for his services as an athlete with a member of the National Hockey League.

- (b) declaring that it be an offence punishable by a fine for any person or organization to solicit, entice or induce any minor in the Province of Alberta before his 18th birthday into any contract which in any way will hamper the ability of him to freely enter a contract with a person or organization of his choice at any time after his 18th birthday.
- (c) specifically empowering the Supreme Court of Alberta on the application of the minor or his parents to restrain by injunction any person who admits to soliciting, enticing or inducing any minor to enter into any such contract.
- (d) making it an offence punishable by fine for two or more persons anywhere to conspire together to engage in such conduct as will constitute a breach of the prohibition of this Act.

AND THAT when effect has been given to this legislation it appears that the young athlete they free from any restraint of contract will be denied the right to play as a result of an agreement to combine to refuse him a playing opportunity in the National Hockey League, and that the legislative authority to prevent and punish such a conspirator is solely within the field of the federal parliament, that this Assembly pass and submit to the federal parliament a resolution requesting it to make appropriate amendments to the laws respecting illegal combinations and preclude the members of the National Hockey League or any of them from combining with any other to boycott a young athlete from playing with any team in the National Hockey League.

The debate continued.

Mr. Maccagno moved the adjournment of the debate which was agreed to.

Return to an Order asked for by Mr. Dickie on February 22nd respecting correspondence between the Federal Government and the Provincial Government respecting special aid to Peace River Farmers. *(Sessional Paper No. 75)*

Mr. Maccagno asked the Government the following question of which he had given notice and was answered by the Honourable Mr. Halmrast.

Q. Are any of the Metis Colonies or Indian reservations in Alberta served by -

- (a) electric power
- (b) telephone
- (c) gas

If any are served, name them and if not, why not?

A.

- (a) There is line power on all Colonies except East Prairie and Kikino on the Beaver River East Colony.

At the present time on Paddle Prairie three settlers have been able to deal with the Power Company for power, and do have it. The farmers in this area are planning to meet with the Power Company this coming spring to arrange to purchase line power through the Rural Electrification Association. Non-farmers are able to have power by having their houses wired and requesting the Company to hook them up, for a fee of approximately \$100.00, if they wish. They are then charged a commercial rate, which is higher than the rates through the Rural Electrification Association.

Power through Rural Electrification is obtainable at \$2,200.00 and may be taken on a 20 year mortgage. Ten families or more hope to purchase through this manner.

There is one family at Gift Lake, who has electricity and a few more are anticipating getting power there. There is also one family at Fishing Lake who has line power and again others are anticipating having electricity.

A power line was recently built into Caslan and some can have it by wiring their houses and requesting the company to connect them to the power line. The same applies on the Elizabeth Colony.

A power unit provides power for the store at Kikino. At this location it is twelve miles to the nearest power line and it would cost approximately \$12,000.00 to have the line extended to Kikino.

There is interest by the Metis Branch in having the people obtain power. Methods are being planned to help more people obtain it.

- (b) There is one telephone only. This is at Paddle Prairie. It is a microwave phone and is for public use. There are no telephone lines to any Colony. There is radio contact with the Department of Lands and Forests on the Northern Colonies, and one at Fishing Lake and Elizabeth.

Telephone lines are very remote in most instances and the number of subscribers at present would not warrant the large expense involved in building lines.

- (c) No Colony at present is provided with Gas Service. Again the number of subscribers on each area would not warrant the great costs in building miles of pipe line to the Colony. There has not to date been any distributing point near enough to the settlements. Many who could afford to install propane or fuel oil, will not have it because they are afraid of the danger of explosion, and prefer to burn wood, which is in abundant supply.

The Order of the Day being read for the questions standing in the name of Mr. Maccagno:

Ordered, That the said questions stand as an Order of the Assembly for a Return showing:

Are aldrin and dieldrin permitted for use in Alberta as insecticides?

Are they permitted for use on any vegetable, green or forage crops?

Ordered, That the said questions stand as an Order of the Assembly for a Return showing:

- (1) Are there any regulations on the feeding of stillbestrol to animals that are for human consumption?
- (2) Is there any licensing arrangement to firms who feed it?

Moved by Mr. Dickie, seconded by Mr. Maccagno:

WHEREAS municipal governments throughout the Province of Alberta with or without the aid of contributions from the Provincial Government are erecting and maintaining facilities for the development of youth in athletic pursuits;

AND WHEREAS members of the various communities in the Province of Alberta with the aid of contributions from both senior governments have initiated programmes to assist and develop young athletes;

AND WHEREAS the response of youth to this encouragement is productive of some first-rate athletes who have demonstrated their capacity in national and world-wide competition;

AND WHEREAS the revenue potential from organized sport through gate receipts and television is now becoming a major source of earning for people with athletic talents;

AND WHEREAS in the opinion of this House a community and the parents and the youth who together have developed marketable athletic talents in a young person should endeavour to ensure that the financial fruits of these attainments are saleable in a competitive market which will yield the young athlete a reward commensurate with his services.

AND WHEREAS it appears that the system in use by the National Hockey League denies the young athlete access to a competitive market and frustrates his right to a reward that is the product of competitive bidding by those who can use his talents for gain in that the National Hockey League in association with the Canadian Amateur Hockey Association has set up in all parts of Canada an arrangement by which no young athlete can engage in the game of hockey at any age without losing his right to serve for reward the team of his choice in the National Hockey League through the following devices:

1. That the Canadian Amateur Hockey Association receives annually from the National Hockey League a sum of money and permits the National Hockey League to sponsor teams with players of all ages and to register these players after which the player when he attains his professional proficiency is required to serve a named particular National Hockey League team to the exclusion of all others and at a salary to be fixed by that team.

2. It has been agreed by the members of the National Hockey League that should a young athlete refuse to be bound by this arrangement each of them will deny him the right to play on any other team in the League.

3. It has been agreed by the members of the National Hockey League they will not permit any other club to claim players from the territory in which any other National League team has the rights described.

NOW THEREFORE BE IT RESOLVED that in the opinion of this Assembly the Government should submit for enactment a Bill to be known as "The Young Athletes Protection Act" for the preservation of the rights of young athletes which will within the limits of the legislative jurisdiction of the Assembly prevent the recited abuses by:

- (a) declaring that any contract by a minor or the minor and his parents shall be null and void and of no effect unless within thirty days next after the 18th birthday of the athlete concerned he voluntarily enters into a contract for his services as an athlete with a member of the National Hockey League.
- (b) declaring that it be an offence punishable by a fine for any person or organization to solicit, entice or induce any minor in the Province of Alberta before his 18th birthday into any contract which in any way will hamper the ability of him to freely enter a contract with a person or organization of his choice at any time after his 18th birthday.
- (c) specifically empowering the Supreme Court of Alberta on the application of the minor or his parents to restrain by injunction any person who admits to soliciting, enticing or inducing any minor to enter into any such contract.
- (d) making it an offence punishable by fine for two or more persons anywhere to conspire together to engage in such conduct as will constitute a breach of the prohibition of this Act.

AND THAT when effect has been given to this legislation it appears that the young athlete they free from any restraint of contract will be denied the right to play as a result of an agreement to combine to refuse him a playing opportunity in the National Hockey League, and that the legislative authority to prevent and punish such a conspirator is solely within the field of the federal parliament, that this Assembly pass and submit to the federal parliament a resolution requesting it to make appropriate amendments to the laws respecting illegal combinations and preclude the members of the National Hockey League or any of them from combining with any other to boycott a young athlete from playing with any team in the National Hockey League.

The debate continued.

The Order of the Day being read for the continued Debate on the following motion:

Moved by Mr. Lamothe; Seconded by Mr. Montgomery:

WHEREAS the income of the average farmer is not in line with the capital investment required to operate his farm in spite of a world shortage of food; and

WHEREAS a reduction in the number of farmers in Canada by 50% to achieve economic and efficient farm units as recommended by the Hedlin Menzies report to the Federal Government would create difficulties of readjustment for these farmers; and

WHEREAS the removal of such a number of farmers from any district would seriously affect the services provided for the people of the district and cause many hardships, for business men of these towns and villages:

THEREFORE BE IT RESOLVED that this Legislature make the following recommendations to the Government of Canada.

1. That markets be expanded for farm products by providing long term credit to hungry nations to buy our farm products.

2. That a two price system be established for farm products to increase the income of the average farmer to a level where he is receiving a fair return on his investment and labour.
